

UK

Important Notice

Under this health assessment, the purpose of having chest X ray done for all those above 11 years age group is to detect the presence of active pulmonary Tuberculosis (TB) among those who wish to apply to travel to the United Kingdom for more than 6 months' duration. For those children below 11 years the requirement is to complete the history and physical examination. Few adults also will undergo physical examination based on the Physician's discretion and abnormal chest X ray findings.
